

# WHAT IS E3?

The E3 Concept addresses three key actions: ENCOURAGE, EQUIP, EMPOWER

## ENCOURAGE:

Every person, everywhere, will thrive greater under encouragement than in an atmosphere of criticism. Encouragement can come in many forms. Whether it's words of encouragement, acts of service, or even recognition, we are passionate to encourage young people to pay attention to God. He is their creator and has a significant purpose for each person's life. If you never pay much attention to God or develop a productive relationship with Him, how could you know if you were really doing what God created you for? We are always creatively thinking of ways to impact our communities through the simple action of encouragement.

## PREGNANCY CRISIS CENTER

There is nothing of greater value than human life. We have a passionate desire to help young mothers in pregnancy crisis situations. Based upon the value of holy scripture, that we are "fearfully and wonderfully made," this center is to inform, give resource and management.

## Equip:

People get motivated to excel when they sense they have the training necessary to reach their goal. Whether this is in our daily work, our marriages, raising a family or handling our finances - it's difficult to succeed having to learn everything by trial and error. We are passionate about equipping people with the tools, resources and knowledge to succeed. Through our programs and ministries to be offered here at the E3 Center, we will equip people to help them succeed. This will include youth ministry, after school programs, community based abstinence education, building healthy marriages, pregnancy crisis, drug rehabilitation, nighttime Bible school, minister leadership training and an adoption center.

We believe we can make significant contributions by adding value to people by equipping them through faith-based education.

## EMPOWER:

Imagine a community filled with leaders. Men, women and young people who are equipped and encouraged, who begin investing their lives in others. They might play on a high school sports team, work in a local factory, serve in their church, or run a small business. No matter where they are, their growth empowers them to be able to influence others around them. They help their co-workers maintain great attitudes, they encourage friends to keep their marriage together, they inspire others in their church to live boldly for Christ. To sum it up, their growth enables them to take others higher, add value to the organization they work for and make their community stronger.

THAT'S THE E3 CENTER VISION:  
ENCOURAGING, EQUIPPING AND EMPOWERING

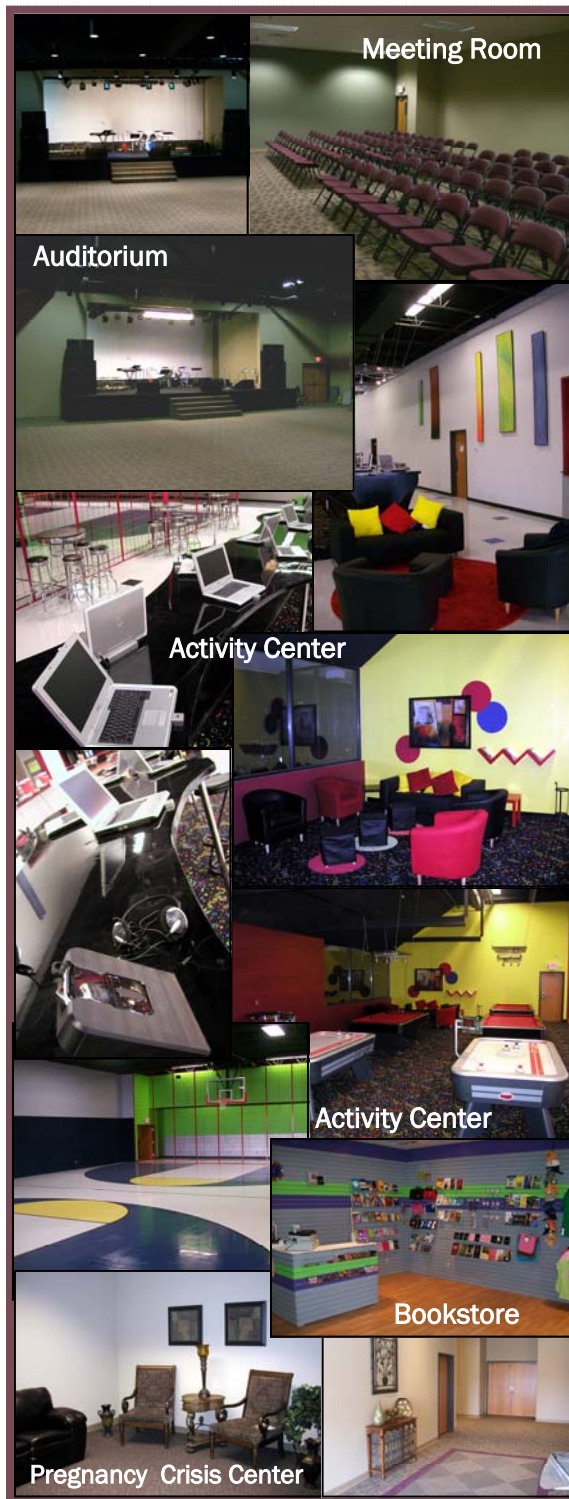

# RENTAL INFORMATION

## ROOM RENTAL PRICES (PER DAY)
